

Shop Tour Lead Magnet & Email Funnel

title: Shop Tour Blueprint: 10 Layout & Organization Plays from the Building Shultz Workshop

author: Solomon's Forge for Jedidiah Shultz

date: 2026-05-22

Executive Summary

This document provides a comprehensive content blueprint for the "Shop Tour Blueprint: 10 Layout & Organization Plays from the Building Shultz Workshop".

- A PDF-ready, detailed outline for the lead magnet ebook (10 shop layout & organization strategies).
- Compelling landing page copy designed for maximum opt-in conversion.
- A three-part email welcome sequence for new subscribers, structured to nurture leads towards engagement.
- Actionable implementation recommendations for launching this funnel, with a timeline and next steps.

By deploying this lead generation package, Building Shultz will strengthen its email list, improve engagement, and increase conversions.

Lead Magnet PDF Outline

Introduction

- **Purpose:** Help real builders, makers, and tradesmen transform their shops into efficient, inspiring, and profitable spaces.

- **Credibility:** Authored by Jedidiah Shultz, journeyman pipefitter, builder, and creator of the BU
- **Promise:** 10 actionable "plays" with visual diagrams for immediate shop impact, from layout hack

The 10 Layout & Organization Plays

Each "play" will feature:

- A title and brief overview
- A visual diagram or sketch
- Step-by-step guidance
- "Shop Tested" tips for real-life application

Play #1: The Power of Zoning

- **Define clear zones:** Assembly, cutting, finishing, tool storage, materials, and "messy work."
- **Why:** Reduces time wasted moving between tasks and keeps dangerous tools away from fragile work.

Play #2: Mobile Workstations

- **How:** Use rolling workbenches and carts for flexibility.
- **Shop Tip:** Retrofit old toolboxes or simple plywood builds with locking casters.

Play #3: High-Impact Vertical Storage

- **Maximize wall space** with French cleats, shelving, and pegboards.
- **Pro Move:** Hanging frequently used tools at eye level for rapid access.

Play #4: Lighting for Productivity

- **Layered lighting:** Overhead LEDs + task lights = fewer mistakes and improved safety.
- **DIY Fix:** Clamp-on shop lights positioned over specific benches.

Play #5: Cord & Hose Management

- **Tangle-free workspace:** Retractable reels, hooks, and labeled cords/hoses.
- **Budget Option:** Reuse garden hose reels for air hoses.

Play #6: Floor Plan Flow

- **Efficient traffic:** Keep pathways clear; avoid trip hazards.
- **Golden Rule:** No clutter within a 3-ft path from main shop door to back wall.

Play #7: Clutter Control Habits

- **2-minute rule:** Clean up between every major task.
- **System:** Daily 5-minute sweep at end of shop session.

Play #8: Materials Staging

- **Easy in, easy out:** Slant racks for sheet goods; vertical bins for lumber cutoffs.
- **Side Hustle:** Bonus tip for storing reclaimed material efficiently.

Play #9: Dedicated Project Spaces

- **Mini project stations:** Use folding tables or wall-hung flip-down benches for ongoing builds
- **Keeps projects safe** while freeing main bench space.

Play #10: Safety & Comfort Upgrades

- **Ear & eye protection:** Wall-mounted dispenser by the door.
- **Climate control:** Simple solutions (fan placement, draft blockers).

Resource List & Shop Diagrams

- **Template diagrams** for small, medium, and large shops (custom sketches can be created)
- **Materials checklist** for each play (budget and premium options)
- **Recommended products** (affiliate links optional for future monetization)

Quick Wins Checklist

Play	Action Item	Complete (checkbox)
-----	-----	-----
Zoning	Mark out zones with tape/chalk	[]
Mobile Workstations	Add casters to old workbench	[]
Vertical Storage	Install first French cleat strip	[]
Lighting	Hang one new LED shop light	[]
...	...	[]

Implementation Recommendations

Platform & Setup

Task	Tool/Platform	Notes
-----	-----	-----
Landing Page + Form	ConvertKit, MailerLite, or Mailchimp	Simple setup; enables
Email Automation Sequence	MailerLite/ConvertKit/Mailchimp	Tag: "shop-tour-lead
Delivery of PDF	Auto-email (link or attachment)	Store hosted PDF on
Lead Magnet PDF Formatting	Canva or direct Markdown→PDF export	Use real shop photos
List Growth Tracker	Google Sheets/CRM	Monitor opt-in rates

Recommended Tools:

- *ConvertKit* for simple landing page and automation
- *Canva* for ebook design if visuals needed
- Test signups and delivery on desktop + mobile

Funnel Optimization Tips

- *A/B Test* landing page headlines and button copy for conversion lift
- Put opt-in link in YouTube video descriptions and Instagram bio
- Remind newsletter readers to whitelist your email for deliverability
- Regularly update lead magnet to keep it fresh (add user-submitted shop photos)

Timelines & Action Plan

Timeline	Step	Owner
-----	-----	-----
Day 1	Approve outline & landing page copy	Jed/Sol
Days 2-3	Design PDF, add diagrams/photos, finalize PDF	Sol/Jed (photos)
Days 2-3	Build landing page, email sequence setup	Sol
Day 4	Test form, PDF delivery, and automation	Sol
Day 5	Launch! Share link on socials, add to YT bio/descriptions	Sol
Weekly	Review opt-ins, adjust for feedback	Sol/Jed

Summary & Next Steps

By implementing this "Shop Tour Blueprint" lead magnet funnel, Building Shultz will:

- Rapidly grow its targeted email list of makers, DIYers, and tradesmen
- Deliver immediate, real value that builds trust and authority
- Create upsell opportunities for future courses, premium content, and IronEdit SaaS
- Establish a replicable framework for future lead magnets and audience growth

ACTION ITEMS FOR THIS WEEK:

- Approve all copy and content (Jed)
- Source shop photos for landing/PDF (Jed)
- Build landing page and automation sequence (Sol)
- Finalize and test PDF (Sol)
- Launch and monitor (Sol)
- Report results in weekly performance brief (Sol)

Build what matters. Let's grow this list and lay the foundation for a million-dollar brand.
